

Bump-WASP-H-CW

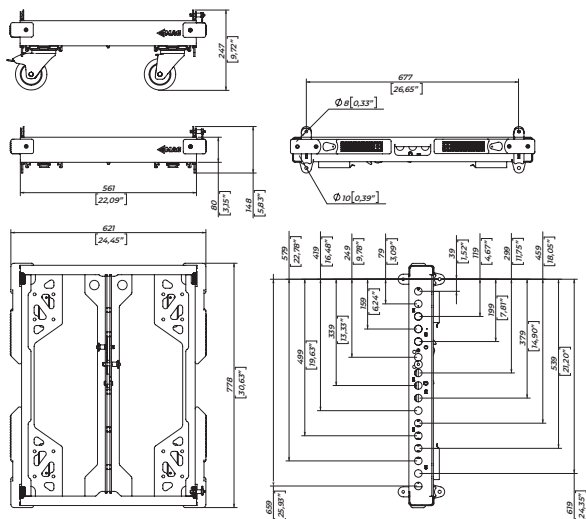

Versatile frame on wheels

WASP line array is the pinnacle of MAG Audio technology ready for next-generation precisely controlled sound spaces. The scalable philosophy behind WASP allows us to use it in small installations as well as in large-scale touring and concerts.

Bump-WASP-H-CW versatile frame on wheels is designed for quick assembly of WASP line array into a ground stack transportation frame from subwoofers to a WASP line array: ground installation a WASP-8 array (no more than 6 pieces), ground installation of the WASP-S series subwoofers (no more than 3 pieces).

DIMENSIONS

SPECIFICATIONS

SAFETY INSTRUCTIONS

1. Entrust mounting equipment to the experienced professionals following current safety instructions. Improperly installed equipment can result in property damage, personal injury and/or liability to the installing contractor.
2. Always use safety cables to prevent equipment from falling during setup or while exploitation.
3. Carefully check the mounting surface of the wall. Make sure wall material can hold the weight of the speaker with the mounting added.
4. Make sure to securely fix all the mounting bolts. Loose bolts may become unscrewed with time due to vibration and create safety hazard.
