FEATURES & BENEFITS

SLXD3 Plug-On Transmitter

SLXD5 Single-Channel Portable Receiver

Peak Fidelity

Bring the 24-bit digital audio clarity of SLX-D Digital Wireless to your on-the-go productions in a streamlined portable package. Full-range 20 Hz–20 kHz frequency response with over 118 dB of dynamic range ensures you capture every detail with precision.

Worry-Free Wireless

Locations are unpredictable. Wireless audio shouldn't be. Outstanding spectral efficiency and rock-solid RF performance deliver flawless wireless audio, time after time. From the leader in digital wireless technology, SLX-D maintains stable signals with high efficiency for rock-solid, reliable performance.

Get Going, Fast

Flexible and user-friendly, SLX-D Portable Digital Wireless Systems have innovative setup features, including IR Scan and Sync and Multi-Mic Mode so you're ready to go at a moment's notice.

Flexibility, To-Go

SLXD5 Portable Receivers + **SLXD3** Plug-On Transmitters = Shure durability in form factors that videographers and field producers need. Suitable for on-camera cold shoe or bag receiver use. Plus, use Multi-Mic Mode to monitor and manage complex multi-channel configurations.

Built To Go Big

Designed to easily scale up for a wide range of production needs. Choose from a first-class selection of handheld and lavalier microphones for up to 32 compatible systems per 44 Mhz band.*

*Country and region-dependent.

Keep the Show Going

Choose from 2 AA (included) or Shure SB903 Li-ion rechargeable batteries for up to 6 hours (receivers) and up to 8 hours (transmitters) of use. SB903 Li-Ion Rechargeable batteries and charging accessories available separately.
